

Session 1: Current Status and Gaps in PFAS Analytical Methodology

Date: June 23, 2020

Location: Virtual Session - GoToWebinar

Time: 10:00 AM - 12:00 PM Eastern

This session will bring together experts from academia, US Food and Drug Administration, non-profit and commercial end-users to present and debate the current status of PFAS analytical methods, challenges and prospects:

10:00 - 10:20 AM

Screening and Quantification Workflows for PFAS in Food Packaging

Keith Vorst, PhD, Director, Polymer and Food Protection Consortium, Iowa State University

10:25 - 10:45 AM

Method Development and Investigation into Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) in the US Food Supply

Susan Genualdi, PhD, Research Chemist, FDA, Center of Food Safety and Applied Nutrition

10:50 - 11:10 AM

Challenges Associated with the Analysis of PFAS in Food and Food Contact Materials

Charles Neslund, Scientific Officer, Eurofins Lancaster Laboratory Environmental

11:15 - 11:35 AM

Developing International Consensus Performance Standards and Official Methods of Analysis for PFAS: Benefits and Challenges

Palmer Orlandi, PhD, Chief Science Officer, Association of Official Analytical Collaboration

11:35 AM - 12 PM

Panel Discussion / Q&A
