

IAFNS Webinar Series
Food Safety & Science Across Canada

September 28th, 2021 (9:00 – 11:00 am ET)

Food Safety & Science Research at McGill University

Topics: Food microbiological safety, Food chemical safety, Antibiotics in agriculture, Antimicrobial packaging, Food toxicology, Nano safety, Food authentication

Sustainability meets technology: natural polymers in functional antimicrobial food packaging

Dr. Yixiang Wang
Assistant Professor, McGill University

Relevance of nanomaterials in dietary exposome

Dr. Saji George
Associate Professor, McGill University

Replacing antibiotics in agriculture – “Are we there yet”?

Dr. Jennifer Ronholm
Assistant Professor, McGill University

Novel devices for rapid detection of food contamination and adulteration

Dr. Xiaonan Lu
Associate Professor, McGill University
