

IAFNS Webinar Series
Food Safety & Science Across Canada

November 18th, 2021 (3:00 – 4:30 pm ET)

Food Innovation Research at the University of British Columbia

Topics: Novel Food processing; Novel thermal processing; Novel non-thermal processing; Novel Dehydration technologies; Novel Encapsulation Technologies; Sustainability in Food Processing

Preparing for the Future Food: Novel Food Processing Technologies

Dr. Anubhav Pratap-Singh
Endowed Professor in Food & Beverage Innovation, UBC

Encapsulation of bioactive compounds by spray drying techniques

Dr. Alberto Baldelli
Research Associate, UBC

Pulsed Light

Mr. Ronit Mandal
PhD Candidate, UBC

Protein nanofibrils in food processing

Dr. Derek Dee
Assistant Professor, UBC
